“Every child is able to achieve success when learning is facilitated by a teacher who displays compassion, patience and an understanding of each child’s unique learning capabilities.”

— Elizabeth Villanueva
Child Development
Specialist

**State of California
HOME BASED
EARLY INTERVENTION
CHILDHOOD PROGRAM**

Mission Statement:

Niños Del Cielo, Inc., is a Home Based Early Intervention Childhood Program that was created in 2002 to provide children with disabilities, from birth to three years of age, and their families a “Whole Family Approach” program. Our mission is to provide support to both the child and the family with community resources, providing support to the whole family during the IFSP and IEP meetings, and helping transition the child to preschool and school district programs and to foster learning in the most natural environment.

What is a Home Based Early Intervention Childhood Program?

A Home Based Early Intervention Childhood Program is part of a statewide system of

services for families of children, from birth to age three, with disabilities or delays in their development in the State of California. The program is provided in the child’s natural environment as determined by the parent/caregiver. Our Home Based Infant Development Specialist will come to the child’s home, his/her day care setting, or an extended family member’s home. Our program provides a play-based learning/building blocks therapy to help stimulate six important areas of a child’s development using The HELP (The Hawaii Early Learning Profile).

1. Cognitive/Problem Solving
2. Language and Communication
3. Fine-Motor
4. Gross-Motor
5. Self-Care
6. Social Play/Mommy and Me, Family & Me

Qualifications of our Niños Del Cielo Home Based Infant Development Specialists include the following:

- ◆ Each Specialist has a Bachelor of Arts degree in Child Development or a related field of study.
- ◆ Each Specialist is required to attend six hours of continued training each month.
- ◆ Each specialist undergoes a thorough background check.
- ◆ CPR/First Aide Certification.
